Sharda Hospital, a State-of-Art Multi Specialty Hospital, offers medical care to the patients at affordable costs. Equipped with all modern facilities and sophisticated equipment, Sharda Hospital provides comprehensive healthcare to all sections of the society. It's highly qualified and experienced medical professionals offer best in class expert care to the patients round-the-clock.

Our endeavor is to provide modern medical care to our patients, encourage research activities, give extensive training to medical students and continuously improve medical and healthcare facilities/practices, and extend.

Sharda Hospital offers special facilities in departments such as

Orthopedics, Cardiology, Urology, ENT, and Gastroenterology. Pertaining to the growing demand and increasing popularity of Ayurveda, we have also established a 'Panchakarma Centre' at Sharda Hospital to provide massage therapies of high and positive prognostic value to the diseases that are considered to be medically unmanageable.

At the onset where Sharda Group of Institutions aspires to reach new benchmark of success the Group believes and continuously serves the humanity and the society. We are committed to upgrading the level and standard of medical facilities to all sections of the society and emphasize the importance of helping the community

with their need for medical emergency and treatment Sharda Hospital is a 660 bedded hospital, It is a well-equipped, multispecialty hospital with modern facilities in this area, catering to the needs of population around Greater Noida. School of Medical Sciences and Research provides rich opportunities for students to pursue collaborative and interdisciplinary education and independent study projects in the field of medical education.

Hospital has 650 beds and Separate beds for casualty, trauma, pre-operative and post-operative and various intensive care units. All facilities for patient care are available.
